RELEVANCE
DESIGN AND CONSTRUCTION ADMINISTRATION FOR APRON SYSTEMS

Fentress Architects retained BNP Associates, Inc. for design and construction administration services related to the LAX Terminal 6 Redevelopment Project and PLB replacement program at Los Angeles International Airport. BNP provided design services to replace two (2) existing bridges and inspect /define the refurbishment requirements of four (4) existing PBB's. The work also included Point of Use Pre-conditioned Air and 400 HZ systems at the new PBB's.

BNP's construction administration services included scheduling, coordination of installation activities, acceptance testing and warranty administration.

A listing of the equipment provided under this contract included:

2 new replacement Apron Drive Passenger Loading Bridges

4 Refurbished Apron Drive Passenger Loading Bridges

2 Fixed Walkways

2 PC Air Systems

2 400 HZ Systems
